PRESS RELEASE

'IRREGULAR TALENTS EXHIBITION INAUGURATION '

16.05.2015 Pinacoteca Nazionale of Bologna(Italy)

At 4.30.00 pm

Nazareno Società Cooperativa Sociale announces the opening of 'Irregular Talents' exhibition, dedicated to Irregular Art, at **Pinacoteca Nazionale of Bologna**, curator Professor Luca Farulli.

The Irregular Talents exhibition is part of the same name intercultural European project of social inclusion through Art, co-funded by **EACEA the European Union within the Culture Program 2007-2013**. Irregular Talents is at the same time an exhibition and Research Project, organized since 2013 by a group of international partners led by Nazareno Società Cooperativa (Carpi). The partners are: Międzynarodowe Centrum Zarządzania Informacją The International Center for Information Management Systems and Services **ICIMSS** (Torun, Poland), Wyższa Szkoła Gospodarki w Bydgoszczy **WSG** (Bydgoszcz, Poland), and Verein Integrative Kukturarbeit **VIK** (Linz, Austria). The three-year-long project that began in 2013, is aimed to study and to give value to the artworks of Irregular Artists, using only artistic criterions. The value is related to the artwork itself, not to the Artist's biography. The project provide for the publication of bilingual monographs dedicated to the single Artists and an itinerant exhibition project that opens up in Bologna, 16th May 2015.

The exhibition project includes both the artworks of Irregular Artists and other well-known Artists. The exhibition will move to Poland (June-July) to end up in Austria (August-September 2015).

In each country a scientific Committee selected the Irregular Artists after studying and co-operating with the Artistic Direction to organize the exhibitions in each country-partner. Art experts have dedicated specific monographies to the artists involved in the project, available in the local language of the country-partner and in English. The selected Artists hosted at Pinacoteca Nazionale are: Anita Baier (Austria), Andrea Giordani (Italia), Renata Jagielska (Polonia), Jarosław Latowski (Polonia), Andrea Obwaller (Austria), Cesare Paltrinieri (Italia), Riccardo Persico (Italia), Gianluca Pirrotta (Italia), Ewa Świokła (Polonia), Elisabeth Watzek (Austria), Anita Wend (Polonia), Hubert Zemsauer (Austria).

In the words of the Curator Farulli, the exhibition invites the visitor to reflect on the sense of Talent " Here is the constellation of Irregular Talents: gift, courage, feeling, happiness, strengths assessed towards Art; a boundary defined as exactitude against casuality, as hardship of shapes and colour to realize the appearance of an external phenomelon or an interior motion, always borrowing a guidance from Life (...)"

In the words of President Sergio Zini "The light that comes out of the chinks of fragile existence, gives us unexpected beauty that our heart grabs with wonder. In the same way earth opens to gush water and give back life to what it touches. Beauty is outside us: we have the task of giving her hospitality because if from fragility comes out beauty, hope rises again for each of us. This is the experience that we have discovered in the daily life of the people we work with at Cooperativa Nazareno that gives us the motivation of a continuous research of new sources of Beauty "
